A part of the time will be occupied by discussions on class work and "The What and How of Teaching" followed by other important subjects. Sacred Concert

St. Mary's Industrial Band of Baltimore, Sunday Afternoon May 23, at Richmond Theatre

Final arrangements have been completed for a sacred concert to be given by the famous boys' band of St. Mary's Industrial School, of Baltimore in the Richmond Theatre, Sunday, May the 23, at 3 p. m.

Alexandrians will remembre this boys' band as being the attraction in the Holy Name Parade last Sunday. These boys in their neat sailor costumes and playing in a manner that would be a credit to any band, attracted attention, and were applauded along the entire line of march. The concert rendered during the banquet that evening by these little musicians was wonderful, and efforts were made then to secure them with their entire band, which numbers nearly 60 pieces, for a concert in Alexandria.

The concert on Sunday a week was made possible, because on the following afternoon and evening they are to give concerts in Baltimore under the auspices of the "All Fraternal Societies," consisting of Odd Fellows', Masons, Elks and the Knights of Columbus. The fund raised then is to go into the rebuilding fund of their school which was burned about a year ago. The money secured here will likewise be added to that fund. A splendid program is being arranged which will consist of solos by members of the band, as well as vocal numbers by prominent Washington singers.

This is without question the greatest boys' band in America and a record crowd is expected. Tickets will be on sale at 50 cents and 75 cents in most of Alexandria stores.

At yesterday morning's session a resolution introduced by Rev. E. B. Jackson of Alexandria, Va., urging Baptists everywhere "to press upon their Congressmen the vital importance of observing the day as a civil institution in this critical period of our national history; and urge legislation on this pressing question in the District of Columbia," was unanimously adopted.

This action was the outgrowth of an appeal made by Rev. J. J. Muir of the Temple Baptist Church, who in welcoming the visitors to the city implored aid in securing legislation adjoining a closer observance of Sunday.

At yesterday morning's session, Dr. B. C. Hening of Tennessee made a motion calling on the President to designate three representatives to attend the services at the First Baptist Church of Alexandria to morrow night when a tablet to the memory of Jeremiah Moore, a pioneer Baptist of this section will be unveiled. VETOES LEGISLATION

President Charges Congress With Invading His Domain

Charging that Congress, in passing the bill making appropriations for the legislative, executive and judicial expenses of the government was "invading the province of the executive," and "interfering in the processes of good government," President Wilson yesterday vetoed the bill and returned it to Congress.

The portion of the bill which brought about the rejection of the whole measure by the President was that placing under Congressional control all government publications.

Senator Reed Smoot, of Utah, was the author of the provision which would establish a form of Congressional censorship on government publications. The section reads:

"Provided That hereafter no journal, magazine, periodical, or similar government publication, shall be printed, issued, or disseminated by any branch or officer of the government service unless the same shall have been authorized under such regulations as shall be prescribed by the Joint Committee on Printing."

It is plain from the language of the President's statement that he regards this provision as a direct usurpation by Congress of his Executive prerogatives. He says:

"I regard the provision in question as an invasion of the province of the Executive and calculated to result in unwarranted interference in the processes of good government, producing confusion, irritation and distrust.

He playfully shook them and the two horse team broke into a run. WORK AND SAVE

"Work and save should be printed on every bank book, every business communication and should be our daily thought until, indeed they become the motto of this Nation as they are our salvation," was a declaration of Governor Edwards, himself a president of a Jersey City National Bank, to 600 bankers last night at the annual banquet of the New Jersey Bankers' Association at Atlantic City.

The Governor continuing said: "Economy and work are some of the old fashioned remedies I, as a banker, would prescribe for the ills of the country. By economy I do not mean simply in the private life of the people: I mean it to apply to city, county, State and national administrations, and to say emphatically, publicly and privately that we must stop the unnecessary spending of money. I believe in the application of the budget system to national expenditures. It will be a great saving in the Nation's funds."

The Governor blamed the wage scale paid by the government for today's unrest. Present day conditions, he asserted, exploded the fallacy that high wages raise the morale of labor.

It is difficult to make the present generation realize the practicability of suggestions akin to those quoted above. The ancient observation, "Whom the Gods would destroy they first make mad," that is intoxicate them with prosperity, is applicable today.

Many object lessons are before us in Alexandria. Men, and women too, are receiving wages they never dreamed of a few years ago, and a few—very few—are living frugally and saving some of the fruits of their blessing, but it may be safely said that the great majority are passing through life with the intention of letting tomorrow take care of itself. In the meantime clouds no larger than a man's hand are being descried upon the far-off horizon which may spread over the entire heavens and bring the thoughtful to their senses.

It is difficult to induce the present generation to understand that a high tide is necessarily followed by low water. The present flood is at its peak and the buoy is gradually turning towards ebb tide.

They who take the motto "dum vivimus vivamus" as their motto and the Count of Monte Christo as their ideal are likely to experience a rude awakening in the near futur.

TRANSPORATION DELAYS

How high prices mount if the partial paralysis of transportation continues is the query of a cotemporary. "Scarcity," it says, "is an important element in cost, and the inability to move goods promptly is in turn an important element in scarcity. From every part of the country comes the same story—railways congested with freight, thousands out of employment because the materials of industry are lacking, strikes tying up large enterprises and food going to waste because it cannot be brought to market. There is not the slightest hope of any diminution in the cost of living so long as these things continue.

"From the merchants who, as in New York, cannot get goods because the truckmen intervene in every labor difficulty and decide for themselves how they shall support this or that strike by the weapon of the boycott, to the farmers whose crops are threatened by the delayed shipments of such articles as seed potatoes and fertilizers, this matter of transportation is of vital interest. It aggravates seriously a situation produced by the increased cost of labor and the decreased amount of production. The consequences to labor itself need not be pointed out. The highest wages are of no benefit if there is no work, and every strike which ties up transportation stops work.

"The shortage in freight cars has hampered transportation as much as any other factor. But the tax on business laid by such an outbreak as the recent outlaw strike is difficult to reckon. The losses can only be guessed. The New York merchants who are organizing their own truck service say that the refusal of the truckmen to handle goods from piers which the union longshoremen have deserted has cost them at least a million a day.

"Business throughout the country is now so intimately related that the interruption of it in Philadelphia is felt in Chicago, in Boston in New Orleans. Thus a purely local strike may have far reaching consequences. But with a condition of interrupted or delayed traffic applying to the whole country the demoralization of trade becomes a national disaster. Transportation is pretty close to being the crux of the whole problem of better business and cheaper living."

TONSORIAL DEMANDS

A curiosity in strikes may be observed in a New Jersey town. The barbers have struck, and one of their demands is an allowance of half an hour for tea. Another demand is addressed to customers. These must be shaved early on Saturday or not at all.

New Yorkers probably will wear their hair longer this season. That is, they may wear the same hair for a longer interval between haircuts, for the price, it is announced, is to be 60 cents instead of 50 cents, as at present.

The price of a shave is to continue at 20 cents—for a time. Shampoos and massages are to be 55 cents instead of a quarter, and oil shampoos 60 cents instead of 40 cents.

A salary increase to $35 a week also has been granted the tonsorial artists.

The master barbers are considering demands to share all of their receipts over $45 a week with their employes on a 50-50 basis, a half hour less work daily, an hour less on Saturday, an hour and a half for lunch, one day off a week and a half day on Sunday.

Present conditions may result in a return to an ancient calling—the itinerant barber—who carries his utensils with him as do scissors grinders. "The Barber of Bagdad," is one of teh most pleasing stories of the Arabian Nights' Entertainment. He went from street to street ready to enter houses and use his razor or scissors, or to work at his calling upon the streets. Should prevailing conditions continue we may look for strike breakers among nomadic knights of the razor.

Tire Mileage Must Be *Built In* at the Factory

There's not a single mile more to be gotten from a tire than is *built into it at the factory*. Only high-grade rubber and high-grade fabric intelligently used *build in* the miles for you to get *out*.

SUCH a tire is the Star. Star Tires are helping many of our customers cut down tire costs—and giving them more riding comfort besides.

STAR FEATURES OF SUPERIORITY

20% stronger by reason of the extra ply of fabric—in all sizes.

Extra quantities of high-grade materials used throughout—not an ounce of reclaimed or substitute rubber anywhere.

Protected against rut cutting and curb chafing by thick side strips.

Sidewalls stronger; breaker strip wider; cushion thicker than in the average fabric tire.

Tread, too, is thicker, tougher and longer wearing. One Star is proof.

Tread and carcass are inseparably united by binder strip of special rubber. And the five angled skid resistance of the "all star" tread is an extra feature of safety.

We stand behind Star Tires with our personal guarantee. We have unlimited confidence in them.

So will you after you've used one. And—it's never too soon to begin using Star Tires.

RED STAR TUBES—Made of the finest pure rubber. Cured with antimony. Extra heavy—extra durable.

DIABETES SUFFERERS SHOULD NOT GIVE UP IN DESPAIR

Warner's Safe Diabetes Remedy has brought health and happiness to many who thought themselves beyond aid.

Diabetes is a peculiar and baffling disease which the medical profession seems to be unable to cure despite the many years of experimenting and research by foremost physicians through out the world.

Diabetes is invariably the result of impaired nutrition—this results in an excess of sugar in the blood and failure of the food to nourish, hence a gradual wasting away while eating well.

Symptoms of the disease are, increased thirst, excess of urine, emaciation and dry skin, often with sweetish odor.

Following are a few voluntary words of praise from a man who has used Warner's Safe Diabetes Cure with gratifying results. Perhaps you may be benefitted in a like manner.

"I had been troubled with Diabetes for 8 years. I heard about Warner's Safe Diabetes Remedy and I tried some of it and got myself in good condition and went to work again. One man said he doctored for 2 years and that one bottle of Warner's Safe Diabetes Remedy did him more good than all the doctors. I am much pleased and so thankful for your life-saving remedy that I cheerfully recommend it to anyone troubled with Diabetes and I hope this will be the cause of helping many sufferers." (Signed) James Platt, Nat'l. Military Home, Dayton, Ohio.

Warner's Safe Diabetes Remedy is made from a formula tried and tested and used with remarkable results during the past 40 years. As the name indicates, Warner's Safe Diabetes Remedy is absolutely safe and is made solely from herbs and other beneficial ingredients.

Sold by Gibson Drug Store. Sample sent on receipt of ten cents. Warner's Safe Remedies Co., Dept. 638, Rochester, N. Y.

Charles Chester, negro, has been lodged in jail in Lynchburg charged with wrecking a Norfolk and Western train near Lowry Thursday. Search is being made for another negro who was with Chester at the time. A knife slit in a rubber air brake hose and several smashed freight cars indicate that the two negroes had reached their destination, and when the freight train did not stop for them they cut the brakes and stopped it. Trainmen caught Chester and shot the other negro through the leg as he was escaping.

HUSBAND KILLS WIFE

Neighbor Rushes to Woman's Assistance, But is Overpowered and Dragged Downstairs With Victim

Scranton Pa., May 15.—Angered because his wife refused to live with him, David Jones, 56, shot and killed the woman yesterday, while she was visiting at the home of her sister in West Scranton. The murder occurred after Jones had engaged in a desperate struggle for 15 minuts with his wife and Mrs. Anna Willetts, a next door neighbor, who attempted to wrest the revolver from the enraged husband. The slayer was arrested by a patrolman, who had to draw his revolver when Jones attempted to escape.

Jones had been separated from his wife for three months. Yesterday Mrs. Jones came to visit her sister, who lives across the street from the Jones home. Shortly after he saw his sister in law leave the place Jones is alleged to have gone to the house where his wife was and assaulted her. Hearing the screams of Mrs. Jones Mrs. Willetts rushed to her aid. She found Jones strangling his wife on the second floor, and when he attempted to draw a revolver, Mrs. Willetts grappled with him and held the hand which Jones had on the weapon.

For ten minutes the women struggled with the man, Mrs. Willetts clinging to Jones' hand so he could not use the revolver. Jones finally dragged his wife downstairs and Mrs. Willetts with her. He then freed himself of Mrs. Willetts and knocked her down.

Jones then dragged his wife from the house, placed her against a shed in the rear yard and, putting a revolver against her abdomen, pulled the trigger.

The screams of the women caused considerable excitement and some person turned in an alarm of fire. At police headquarters Jones who is a city street employee, said he shot his wife because she refused to live with him.

TIME TO ACT

Don't Wait for the Fatal Stages of Kidney Illness. Profit by Alexandria People's Experiences

Occasional attacks of backache, irregular urination, headaches and dizzy spells are frequent symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a time but generally return with greater intensity. Don't delay a minute. Begin taking Doan's Kidney Pills, and keep up their use until the desired results are obtained. Good work in Alexandria proves the effectiveness of this great kidney remedy.

Mrs. A. W. Ballard, 506 South Alfred St., Alexandria, says: "I could hardly get around, my back hurt so. When I bent over I would get so dizzy I could hardly straighten up. There was a throbbing ache in my head most of the time and I always felt tired. Doan's Kidney Pills relieved me of all kidney complaint and I believe if I hadn't taken them in time the trouble would have been pretty serious. I certainly can recommend Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Ballard had. Foster-Milburn, Co. Mfrs., Buffalo, N. Y.

Montreal Banker Ends Life When Foiled in Flight to United States

Montreal, Quebec, May 15.—The greatest sensation that has developed in the Arnstein case so far occurred late yesterday evening, when W. Graham Browne, a prominent Montreal banker, who had taken a train for the United States, with the evident intention of avoiding the warrant which was sworn out against him and four other prominent persons suspected of complicity in disposal of the stolen Liberty bonds, was arrested at the border and brought back to his office in Montreal, where, in the presence of detectives, he shot himself dead.

HEFLIN WINS IN ALABAMA

Birmingham, Ala., May 15.—Senator Oscar W. Underwood, of Alabama, has been renominated for the six-year term and Representative J. Thomas Heflin has won his race for the unexpired Senate term of Senator John H. Bankhead, according to the official returns from Tuesday's primary, which were compiled yesterday.

Senator Underwood got a majority of 1,668 over both his opponents, L. B. Musgrove, Union Labor candidate, and Judge Samuel D. Weakley, author of Alabama's prohibition laws. Heflin has a plurality of more than 12,000 first and second choice votes over his nearest competitor, former United States Senator Frank S. White of Birmingham.

Judge Henry B. Foster, campaign manager for Musgrove, issued a statement this afternoon conceding the defeat of his candidate.

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadorsville, Ky.,—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before.

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action leaving no bad after-effects, it has won the praise of thousands of people who have used it.

He then suggested that steps should be taken at once to ration sugar and to elminate its use wherever posible in the production of luxuries.

BLOCKS PRINTING SPEECHES

The paper shortage yesterday hit the political campaigns of members of Congress who are seeking reelection.

Orders came from the government printing office that no more orders will be accepted from members for printing of extra copies of speeches, which usually are scattered by the hundreds of thousands over the respective districts.

The government's supply of white paper is becoming so short that the publication of the Congressional Record may have to be abandoned temporarily, the printing office reported.

PRINCE OF SPAIN

Don Jaime

Born stone deaf and dumb and now at 12 years of age hears and talks as the result of an adjustment in the neck. All the previous 12 years the most famous specialists in Europe had been appealed to, to give hearing and speech to the prince who, in that condition, could not qualify as heir to the throne of Spain. All the efforts were in vain, when finally an anatomical Adjustor in London, (here Chiro practor) by a dextrous chiropractic move took the pressure away from the great nerves to the ear, which up to that time had been paralyzed. Almost immediately the prince could hear and soon also began to talk. Such and similar things are being done by Chiropractors every day, only they don't get a chance at Royalty very often.

No matter what your disease always think of Chiropractic, it is harmless and does not make a drug or dope fiend out of you.

PROGRESS MADE AT TORPEDO STATION

(Continued from Page One)

torpedo are handled at this station. The work of making torpedoes is now in progress having been begun several months ago. The capacity of the plant with 600 men working will be two torpedoes a day.

With such a plant here Alexandria is assured of a class of citizens who will help in making the city a bigger and busier city. The fact that the majority of the employees will be highly skilled mechanics also means that this station will have to look to other cities for this class of help. These men will want houses and bring their families along and make Alexandria their permanent home.

With the coming of these men business will gradually improve and the city will have a class of men who will make splendid citizens and who are not floaters. Many of these men it is expected will purchase their home in Alexandria.

Today there are many employed at this plant who now reside in Washington and are anxious to either rent or buy houses here. Just as soon as they obtain proper housing facilities they will move here.

Alexandria may, therefore, well feel proud of such a splendid plant which will be one of Alexandria's leading enterprises and assures the city of a new set of permanent citizens.

They use the greatest care and skill,
And promptly all their orders fill.

Cooperation Between Employer and Employees Is Necessary If Both Would Be Truly Successful!

Now is the time for the forward look, for the commencement of a movement that will work out for a closer relationship between the man who has work to offer and the man who wishes the work. The closer that this relationship is between them and the more that each endeavors to co-operate with the other, placing his dependence upon the success of both. Employeds and workersc are engaged in common cause. Each should have the ambition of reaching the highest pinnacle of success and should appreciate their dependence upon the other. The closer they work together, that much easier will they reach the goal toward which they are striving.

The Man Who Offers Employment and those Who Accept Same Have a Responsibility Towards Each Other and Which They Must Assume

It's Team Work That Counts

Business could not exist without labor. Labor could not exist without business. One is dependant upon the other. The interests of all depend that business and labor should co-operate in order to be successful.

When employment is offered, persons accepting same have a right to consider that certain considerations are their due. The employer, actually and tentatively agrees to certain things and which must be carried out. A successful business man, in any line, will not tender employment unless he knows that the conditions offered will be met. The responsibilities of the employer are great and unless he recognizes them and endeavors to fulfill them in every detail, it is impossible for him to be successful from the fact that he cannot hire or retain help as soon as it is known that he is irresponsible and indifferent to the just claims his employees may have upon him.

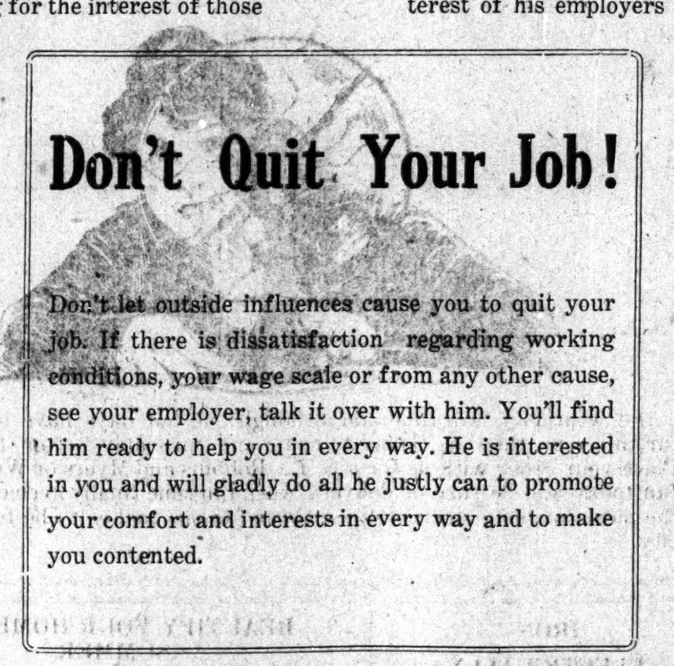
Give Consideration to Matter

The sincere man who will consider the points brought out in this announcement can not help but admit the need of co-operation that exists today between all classes and the beneficial results when it is recognied.

The Claims of the Employees Are Not Any Greater Than That of the Man Who Furnishes Employment. It Is as Binding and Should Be Recognized as Such By Every Wage Earner

A great deal of the misunderstandings that arise between employers and workers is due to the failure of each to recognize the rights of the other. While a portion of the difficulties that come up can be traced to unfairness of the employers ,there can be no question but what a great deal of the trouble is traceable directly to employees acting unfairly towards those by whom they are employed. Perhaps not in the strict sense of right and wrong. But more particularly as to their failure in co-operating and in working for the interest of those by whom they are employed. Men who work for a wage are responsible to a great extent for the success and growth of the business. They should realize that carelessness, lack of interest, indifference as to quality and quantity of the work performed lessens the profits of the business, increases the cost of operation and prevents its expansion. All of which directly works against the interests of the men who are employed and thus creates conditions that tend to promote unrest and dissatisfaction against the employer who is in no way responsible. If men will tak an interest in their work, endeavor to make a quality production, in as large a measure as possible, they will usually fnd that they will receive a wage satisfactory and under working conditions that will also be all that they can deside. The unrestlessness of men in these days, due to reports of big wages in other places is responsible for a spirit of unrest. They hear of how much money can be made in other places but which if traced down would prove to be a myth or that working conditions are so poor and requirements are so great that the hardships in connection with the work in other places more than counteracts the larger wage. The man who has a good job, is steady, reliable and has the interest of his employers at heart, will not need to complain. His work will be appreciated, he will be advanced and his wage will always be in a just proportion to that service which he renders his employer. Co-operation is essential on the part of both. The more that it is known and recognized, the greater will be the success of those who are employing men as well as will the success be greater of those who are employed.

It is perfectly right and just for every man to wish to make his labors produce for him as large a wage as possible. A man will never get along who becomes discontented and starts running about, working only a few days on a job and then leaving for some other place where he imagines he is going to better himself. It is the man who sticks to his job, and who works at all time to make his work productive, who succeeds. Whether you are employer or employee, consider carefully this relationship that must exist between men if they would be successful.



Don't Quit Your Job!

Don't let outside influences cause you to quit your job. If there is dissatisfaction regarding working conditions, your wage scale or from any other cause, see your employer, talk it over with him. You'll find him ready to help you in every way. He is interested in you and will gladly do all he justly can to promote your comfort and interests in every way and to make you contented.

LABOR WAR VICTIM

Thirteen Suspects Held—Dead Tenderloin Czar's Apparel Set With Diamonds

Chicago, May 15.—A blackhand plot or a labor war was responsible for the murder of James ("Big Jim") Colosimo, proprietor of a famous levee district cafe, in the main room of his restaurant yesterday, police believe.

Thirteen suspects were being held yesterday, while detectives hunted for Colosimo's first wife, from whom he was divorced six weeks ago. The widow, formerly Dale Winter, a singer in the cafe, who married Colosimo, at French Lick, Ind., three weeks ago, was released after being questioned by police.

Police declared yesterday that Colosimo had been living on a "permit" for 10 years. His death was voted a decade ago by the Mafia, they say their investigations have disclosed, but for various reasons the murder was postponed from time to time.

Colosimo's love for diamonds was disclosed when police examined the clothing he wore at the time of the murder. On each garter clasp were three diamonds of a karat each. His suspender buckles were adorned with karat stones flanked by two of a half karat each while the elastic straps had been replaced by gold chains closely woven. On his finger he wore a ring set with a seven karat stone.

Colosimo had been known for years as a gem collector. At the time of his divorce he gave his first wife $30,000 in diamonds in part payment of her alimony.

Napoleon wore an emerald ring taken from the tomb of Charlemagne.

Roanoke, Va., May 155.—Members of the Brotherhood of Railway Clerks employed by the Norfolk and Western Railway, submitted demands for increased wages and revised working conditions April 12, according to an announcement last night by F. K. Hodges, secretary of the union.

According to Secretary Hodges the demands include re-establishment of differentials which existed prior to government control.

Fifteen days' vacation with full pay.

In a circular referring to the demands, sent out to members of the clerks union yesterday, by the officials of the brotherhood, the members are enjoined "to not give up the fight until they come across or else

The circular adds:

"This is the new nation wide going movement, which has been presented to all roads in the Uinted States and the pixteen recognized railroad labor organizations have similar propositions and we are again acting as a unit in this movement."

THREATEN TO STRIKE

Waterbury, Conn., May 15.—Machinists in all local factories, numbering nearly 5,000, as the outcome of a stormy meeting yesterday, presented to their employers demands for a 35 per cent wage increase and a 44 hour week. If the demands are not granted, it was declared the machinists will join the strike of 10,000 unskilled laborers. The manufacturers are expected to refuse to comply.

If the machinists' strike threat is made good, factories already crippled by the unskilled laborers' strike may close down entirely. Such action would throw more than 20,000 out of employment.
